The **aluna** sideboard is striking with its intermittent open and closed sections. The bases are fixed alternately with L-shaped and flat sides. The sides are available optionally in three different heights, allowing books and interior accessories of different sizes to be conveniently stored. A special bookend ensures that books sit securely on the shelves. Chrome steel feet define the distance of the **aluna** sideboard from the floor and support this lightweight piece of furniture. The furniture range is complemented by the **aluna** coffee table.
