The **duna** sideboard gains his individual character through the soft design style and the distinctive veneer inlays. The top is made of anodized aluminium with a print of a harmonic interpretation of wave patterns that change depending on the exposure to light. The metal fittings specially developed by **nut+grat** are a technical simplification of the pullout-system as well as a graphical interplay.

**Wood type:** local solid wood | veneers

**Surface:** oiled and waxed

**Design and construction:** nut+grat, Marilena Cadau (top), 2007

**Image:** made from plum wood
