This chair is available as part of the **linea** range which works well, in terms of design, with the **linea** table, though it is somewhat more modest in style. The mitre joints between the seat and the chair legs can be tapered even more, on request, to further emphasise the table's distinctive style. The backrest has been ergonomically designed and also adopts the minimalist theme of the **linea** range thanks to its clean lines.

Wood type: indigenous hardwood
