The **mantide** table is made exclusively from solid wood. The three-dimensional, milled-to-size table legs and table edge of the base frame are fixed using traditional mortise and tenon joints, giving the piece a distinctive and sleek look. The table top has chamfered edges around its entire circumference. The interplay between the substructure and the table top provides mantide with delicate and clean lines.

Wood type: solid wood | indigenous hardwood

Surface: oiled and waxed or matt finish
